- **Hiring a car:** driving in Palermo is not deadly dangerous as you read on the web. It's just a different way of driving. Follow the flow, play the horn and use eye contact to communicate with other drivers.

- **Tipping:** in Italy we don't have any tipping policy. If you have the pleasure to tip for a service, the amount it's simply up to you, your heart and your wallet!

- **Safety tips:** Sicily is safe. Basic safety precautions are more than enough. Avoid making jokes about mafia and wearing Godfather's t-shirts. Hundreds of Sicilians lost their life fighting against it. Please respect
